   A-Levels: Applied ICT (A), Religion (B), Design & Technology (B)
   AS Levels: English Literature (C)

EXPERIENCE

Web & Multimedia Content Designer
September 2016 - June 2017
Faculty of Art, Design & the Built Environment
Ulster University, Belfast School of Art
   A 10 month placement taken on for Year 3 of my Interaction Design degree. My role involved helping the School of ADBE create and maintain a consistent web presence in line with the other faculties within the University as it went through a rebranding. As the only designer in the Faculty, I designed web and print content for events within the school. Throughout the year I also worked with the CMS and code including HTML, CSS and JS, as well as PHP briefly.

Freelance Graphic Designer
August 2014 - Present
Paige Boyd Designs
   I currently work as a freelance digital designer, undertaking projects such as creating posters, social media banners, logos, flyers, business cards and other promotional materials for the web and print. I particularly enjoy creating brands and UX design.

Junior Web Designer
January 2013
31 Interactive, Belfast
   During my A-Levels I undertook a week long work placement where I shadowed web designers, developers and the digital marketing team to get an insight into the industry. During this experience I created advertising materials for a local photography business which was used online & in store.
